LABELING & MARKING

The labeling solution ecological and efficient

Zero waste (no scraps and no silicone support to be disposed of). It uses paper (direct thermal too) or plastic material that is cheaper than the sandwich used for conventional self-adhesive labels. Extremely robust, it was created for 24/7 operation and for the most severe industrial cycles. It guarantees unique autonomy (thanks to the capacity of the roll consisting of front material only). Efficiency and simple and intuitive control through the Man Machine instinctive interface, with all the most advanced features. It guarantees maximum connectivity to the line and the information system, latest generation web services and remote monitoring, via A.R.C.A. App and software Overview

La solution d'étiquetage écologique et efficace

Zéro déchet (pas de chutes ni de support siliconé à éliminer). Utilise du papier (y compris thermique direct) ou du plastique moins cher que le sandwich utilisé pour les étiquettes autocollantes conventionnelles. Extrêmement robuste, elle est conçue pour fonctionner 24 heures sur 24 et 7 jours sur 7 et pour les cycles industriels les plus sévères. Elle garantit une autonomie unique (grâce à la capacité du rouleau constitué uniquement du frontal). Efficacité et contrôle simple et intuitif via l'interface homme-machine instinctive, avec toutes les fonctionnalités les plus avancées. Garantit une connectivité maximale avec la ligne et le système d'information, des services web de pointe et une surveillance à distance, via l'application A.R.C.A. et le logiciel Overview.
